

# AB405 Gets a Hearing!

*Your efforts were instrumental*

Currently in the state of Nevada, girls under the age of 18 can get an abortion - a surgical procedure - without a parent ever knowing. Over 30 states have parental involvement laws.

**AB405 is a commonsense bill that would require notification of one parent or guardian prior to an underage girl obtaining an abortion.**

After 31 days held hostage in the Finance Committee, AB405 was released to the Senate HHS Committee where it will finally get a hearing on Monday, (Memorial Day) at 2:30 at the Legislative Building in Carson City (401 S. Carson Street). As has been the case throughout our efforts, constituents provide the energy to move this forward. If you can, please make plans to attend this hearing. Senators need to know that you care!

**Memorial Day • 2:30pm • 401 S. Carson Street, Carson City**
